CAMPUS SAFETY AND SECURITY SURVEY DATA FOR 2008-2010.....	13

The safety of students, faculty, staff, and visitors is an important concern of Neumont University. This document has been prepared to increase your awareness of campus security programs and to provide information to protect your safety.

Administration and supervisory personnel are responsible for the incorporation of the security principles and procedures. Each member of the faculty, staff and student body is responsible for carrying out campus regulations and shall comply with federal, state and local laws related to conducting institutional business.

Annually, the University publishes this campus security report in compliance with the *Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act*. It includes security policies. A separate document, which includes campus crime statistic as defined by the *Clery Act*, is also available. This information is available from Student Affairs and on the Neumont University website.

PROCEDURES FOR REPORTING INCIDENTS

All victims of crimes that occur on the campus or persons observing crimes to property or persons, suspicious activities or accidents should report these incidents to the Student Affairs Department.

The phone numbers for this department are:

Staff Member	Contact Information
Erin McCormack, Dean of Students	801.302.2844 Room 215 erin.mccormack@neumont.edu
Corrine Padilla, Student Life Coordinator	801.302.2857 Room 216 corrine.padilla@neumont.edu
Larry Crandall, Registrar	801.302.2876 Room 214 larry.crandall@neumont.edu
John Peppinger, Student Life Coordinator	801.302.2841 Room 217 jpeppinger@neumont.edu
Alice Nguyen, Student Advisement Coordinator	801.302.2896 Room 213 alice.nguyen@neumont.edu
Student Affairs on-call phone	801.783.8177
Resident Assistant on-call phone	801.634.5462 (non-confidential matters)

In emergencies, students and employees should first call 911. To contact the South Jordan Police Department for non-emergency matters, call 801.254.4708.

Telephones are located in the following areas (you must dial 9 to receive an outside line):

- 3rd floor reception desk
- Any faculty or staff member’s office

The Student Affairs Department encourages any victim of a crime that occurs on campus or in Neumont’s coordinated housing facilities to report incidents promptly and accurately to the police. If a victim declines to report the matter to the local police, the incident may be handled as an institutional matter. The institution reserves the right to treat an offense as a

disciplinary matter whether or not it is being investigated by a law enforcement agency.

In addition to reporting crimes to the police, students are encouraged to promptly and accurately report crimes or other safety information to the campus Dean of Students (see table above for contact information). In the event of an urgent situation in which the Dean of Students is not immediately available, students should report information to any member of the Student Affairs staff (see table above for contact information).

Students and employees are required to report any situation or incident on campus or in the coordinated housing program that involves a significant emergency or dangerous situation that may involve an immediate or ongoing threat to the health and safety of students and/or employees. This information should be reported to the campus Dean of Students (see table for contact information).

If you are the victim of a crime and do not want to pursue action within the university or criminal justice systems, you may still want to consider making a confidential report. With your permission, the Dean of Students or a designee can file a report on the details of the incident without revealing your identity. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the future safety of yourself and others. With such information, the University can keep an accurate record of the number of incidents involving students, determine where there is a pattern of crime with regard to a particular location, method, or assailant, and alert the campus community to potential danger. Reports filed in this manner are counted and disclosed in the annual crime statistics for the institution.

Neumont University will, upon written request, disclose to the alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the college against the student who is the alleged perpetrator of the crime or offense. If

the alleged victim is deceased as a result of the crime or offense, Neumont will provide the results of the disciplinary hearing to the victim's next of kin, if so requested.

CAMPUS SECURITY AND LAW ENFORCEMENT

The Student Affairs Department or designee provides security support and information for the institution. Student Affairs provides information in the areas of parking, traffic control, fire prevention, safety and enforcement of all applicable regulations. The University cooperates with outside law enforcement agencies and exchanges criminal offense information with the U.S. Department of Education.

Students, faculty, staff and visitors are encouraged to report criminal offenses to the local police department *in addition to reporting them to Student Affairs*. Reports are handled by Student Affairs in a prompt manner. The local police department, local county sheriff's department, and other local police agencies, state agencies, and federal law enforcement agencies have criminal jurisdiction on this campus and in Neumont coordinated housing facilities.

There are no security personnel housed on the Neumont campus. Security personnel are employed by the River Park business complex and by the owner of the Neumont coordinated housing facilities, though neither security service is authorized to arrest individuals. *These security personnel do not constitute a replacement for police;* they may issue parking tickets, question individuals, and report crimes to the local police department.

Student Affairs tracks crime statistics for both the Neumont campus and the coordinating housing program.

In response to reports of criminal activity, Neumont personnel may relay information to the police and/or handle the matter as an internal institutional matter. Factors such as

the severity of the offense and the wishes of the victim are considerations in decisions regarding reporting matters to the police. The University does not have a formal relationship (such as a memorandum of understanding) with local or state police agencies; in the event of criminal activity, the University works closely with police personnel to assist with investigations and to track criminal activity both on-campus and in the coordinated housing program.

Students, faculty, and staff should report suspicious persons and activity, and report incidents in which unknown persons attempt to gain access to Neumont facilities.

Criminal offenses that occur in the Neumont University coordinated housing program are typically reported to the local police department. The University attempts to track reports of criminal activity that are reported to the local police department and may, depending on the circumstances, address such matters using the institutional judicial process.

EMERGENCY RESPONSE AND EVACUATION PROCEDURES

When a serious incident occurs that causes an immediate threat to the campus, the first responders to the scene are usually the South Jordan Police Department, South Jordan Fire Department, and medical services; they typically respond and work together to manage the incident. Depending on the nature of the incident, other local or federal agencies could also be involved in responding to the incident.

Students and employees are required to report any situation or incident on campus or in the coordinated housing program that involves a significant emergency or dangerous situation that may involve an immediate or ongoing threat to the health and safety of students and/or employees. This information should be reported to the campus Dean of Students (see table for contact information).

Neumont University (typically the Dean of Students) has the responsibility of responding to and summoning the necessary resources that will mitigate, investigate, and document any situation that may cause a significant emergency or dangerous situation. In addition, Neumont has a responsibility to respond to such incidents to determine if the situation does, in fact, pose a threat to the community. If that is the case, Federal Law requires that the institution immediately notify the campus community or the appropriate segments of the community that may be affected by the situation. These notifications are typically sent through the emergency alert notification system and the University e-mail system.

The Neumont University emergency alert notification service allows Neumont personnel to communicate emergency alerts and crime bulletins to students and staff in a timely manner. In the event of a significant emergency or dangerous situation involving immediate threat to the health or safety of students or employees on the Neumont campus or in the coordinated housing program, an alert will be sent through the emergency alert notification system and/or the Neumont e-mail system (every student and staff member has an account). Neumont will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless the notification will, in the professional judgment of responsible authorities, compromise efforts to assist victims or to contain, respond to, or otherwise mitigate the emergency. Students are notified of the service each academic term and must provide contact information (one time only) for this opt-in service.

Student Affairs and Information Technology departments collaboratively maintain the alert system. In the event of an emergency (defined as a situation that endangers the health or safety of individuals in the Neumont community) where those at risk cannot be notified in-person of the risk—and it is determined by a member of the Student Affairs department or other authorized member of the

University staff that notification to the Neumont community will not hinder attempts to assist victims or contain the emergency—the emergency alert notification system will be initiated. University officials will use professional judgment and assessment of the circumstances, such as whether the situation poses a serious or ongoing threat to students or staff. Whenever possible, the University will consult law enforcement. The content of the notification will reflect the nature of the emergency; the best interests of the community, law enforcement, and victims; and, to the extent possible, instructions for recipients on how best to respond to the situation.

Alerts are sent to email addresses and phone numbers (text message and voice mail), as requested by students when they opt-into the alert service. This service is tested, at a minimum, on an annual basis (though it typically occurs each academic term) to ensure that student and staff contact information is correct and to provide a demonstration of the service; the test is also intended to raise awareness about potential security threats on-campus. These tests are announced to the Neumont community in advance.

In addition to the emergency alert notification system tests, the University also participates in an annual evacuation drill conducted by RiverPark management, which owns and oversees the Neumont campus building. The purpose of this drill is to acquaint students and employees with emergency exits and to practice an orderly evacuation of the campus building. These drills are not announced to the Neumont community, though administrators are made aware in advance.

RiverPark reports concerns regarding egress and behavioral patterns to the University. Based on this information, the University may implement educational programs or initiate facility changes.

Shelter-in-Place Procedures—What it Means to "Shelter-in-Place"

If an incident occurs and the buildings or areas around you become unstable, or if the air outdoors becomes dangerous due to toxic or irritating substances, it is usually safer to stay indoors, because leaving the area may expose you to that danger. Thus, to "shelter-in-place" means to make a shelter of the building that you are in, and with a few adjustments this location can be made even safer and more comfortable until it is safe to go outside.

Basic "Shelter-in-Place" Guidance – If an incident occurs and the building you are in is not damaged, stay inside-seeking an interior room-until you are told it is safe to come out. If your building is damaged, follow the evacuation procedures for your building (close your door, proceed to the nearest exit, and use the stairs instead of the elevators). Once you have evacuated, seek shelter at the nearest building quickly. If police or fire department personnel are on the scene, follow their directions.

How You Will Know to "Shelter-in-Place" – A shelter-in-place notification may come from several sources, including Student Affairs, housing staff members, other University employees, the federal or state government, South Jordan Police Department, or other authorities utilizing the University's emergency communications tools.

How to "Shelter-in-Place" – No matter where you are, the basic steps of shelter-in-place will generally remain the same. Should the need ever arise, follow these steps, unless instructed otherwise by local emergency personnel:

1. If you are inside, stay where you are. Collect any emergency shelter-in-place supplies and a telephone to be used in case of emergency. If you are outdoors, proceed into the closest building quickly or follow instructions from emergency personnel on the scene.
2. Locate a room to shelter inside. It should be:
 - i. An interior room;
 - ii. Above ground level; and
 - iii. Without windows or with the least number of windows. If there is a large

- group of people inside a particular building, several rooms may be necessary
3. Close exterior doors.
 4. Close vents to ventilation systems as you are able. (University staff will turn off ventilation as quickly as possible.)
 5. Make a list of the people with you and ask someone (housing staff, faculty, or other staff) to call the list in to Student Affairs so they know where you are sheltering. If only students are present, one of the students should call in the list.
 6. Turn on a radio or TV and listen for further instructions.
 7. Make yourself comfortable.

ACCESS TO FACILITIES

Academic buildings are open to students and staff during prescribed hours as long as students comply with the rules and regulations of the institution. Access to administrative offices is open to students and visitors by appointment. Appointments are made through the Receptionist at the campus: 801.302.2800.

The campus is not open to the public. The 2nd floor is only accessible with a Neumont identification badge/key card, which unlocks elevators and stairwell doors, and also by special permission. (Note: during the first 1-2 weeks of each academic term and during special events, the elevators and stairs may be unlocked to accommodate new students and visitors.) Visitors to the 3rd floor must identify themselves to the receptionist.

All visitors must be accompanied by an employee. The Neumont office building ("RiverPark 2") is accessible only to "RiverPark 2" employees between 10:00 p.m. and 7:00 a.m. Monday through Friday, and on weekends (with the exception of Saturdays from 9:00 a.m.-1:00 p.m.)—when no Neumont-sponsored activities are scheduled. Visitors to coordinated housing facilities must either have a key, or be accompanied by a resident of the apartment, to access an apartment. Visitors are subject to the rules and regulations of the institution.

RiverPark 2, including the second and third floors (which house the Neumont campus), are intended to provide a secure environment. Visitor policies for these spaces are intended to reduce the likelihood of unauthorized visitors. However, the primary entrances to the building are unlocked during normal business hours. Additionally, the third floor of the building is unlocked and, despite the locked elevators and doors for second floor, there is a chance that an unauthorized person or persons may gain access to the floors. Thus, students and staff should be vigilant in protecting their person and their possessions. Unauthorized visitors to the building should be reported immediately. If, at any time, you feel unsafe, dial 911 immediately.

Neumont University coordinated housing program apartments include locking doors but apartments are not in a secure building. Students should take reasonable precautions to secure their apartment by locking all external doors and windows.

MAINTENANCE OF CAMPUS FACILITIES

RiverPark Management, which owns and oversees the Neumont campus building, monitors hallways, stairwells, and other campus facilities to ensure that they are well-lit and allow egress. Equipment that is not in working order is generally repaired in a timely manner.

If you notice insufficient lighting in any area, a burnt out light bulb, or other safety concern, notify a school official as soon as possible: 801.302.2800.

INFORMATIONAL PROGRAMS

Upon publication of this report, students and employees are notified by e-mail. Special security bulletins will be distributed if a need arises, to advise students and employees of community crime patterns and suspect information.

Students are encouraged to avoid walking between the campus and the coordinated

housing facilities in the dark unless part of a group. A shuttle service between these locations is available before and after school as posted in campus notices.

Students who reside in the coordinated housing program are also encouraged to avoid walking alone at night.

PREVENTION PROGRAMS

Neumont supports programs that offer educational information and victim assistance in areas such as rape and sexual assault, and all types of violent crime. Information that relates to local community supported programs are available to students, faculty, and staff via the South Jordan Police Department 801.254.4708.

SEXUAL HARASSMENT / SEXUAL VIOLENCE PROCEDURES

Sexual harassment is unwelcome conduct of a sexual nature. It includes unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature.

Sexual and any other type of harassment creates a hostile atmosphere and will not be tolerated by the University.

In addition to reporting crimes to the police, students are encouraged to promptly and accurately report crimes or other safety information to the campus Dean of Students (see table above for contact information). In the event of an urgent situation in which the Dean of Students is not immediately available, students should report information to any members of the Student Affairs staff (see table above for contact information).

Judicial procedures for sexual harassment and other Student Code violations are outlined in the Neumont University *Student Handbook*, which is available on the school website (www.neumont.edu). In certain situations the

victim may voluntarily participate in informal methods of addressing the alleged perpetrator (e.g. mediation); the victim may end these informal procedures at any time and request that formal judicial action be taken against the perpetrator. Informal procedures are typically not used in cases involving sexual assault/violence.

If you are the victim of a crime and do not want to pursue action within the University System or the criminal justice system, you may still want to consider making a confidential report. With your permission, the Dean of Students or a designee can file a report on the details of the incident without revealing your identity. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the future safety of yourself and others. With such information, the University can keep an accurate record of the number of incidents involving students, determine where there is a pattern of crime with regard to a particular location, method, or assailant, and alert the campus community to potential danger. Reports filed in this manner are counted and disclosed in the annual crimes statistics for the institution.

Sexual Assault Programs and Procedures

Sexual assault/violence is a type of sexual harassment. Claims of harassment will be vigorously and swiftly investigated and prosecuted. Sexual harassment, including sexual violence of any kind, is prohibited by the Neumont University Student Code, as well as state law.

Sexual violence refers to physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent due to the victim's use of drugs or alcohol. An individual also may be unable to give consent due to an intellectual or other disability, or due to their age. A number of different acts fall into the category of sexual violence, including rape, sexual assault, sexual battery, and sexual coercion.

If you feel your safety is threatened at any time, call 911.

As with all criminal offenses, Neumont University encourages victims of sexual assault to report the crime to both law enforcement agencies and Student Affairs. A victim who wishes to file a formal or informal complaint of sexual assault against a student should notify the Student Affairs Department as quickly as possible.

In response to reported sexual assaults, Student Affairs will provide support to the victim. This support may include accompanying the student to law enforcement agencies, medical facilities, hearings, and so forth, as requested by the student, in addition to helping the student identify counseling services in the community. If the individual is living in Neumont coordinated housing and requests a change in their living arrangements, Neumont will accommodate the request if reasonable and possible. Neumont will also assist victims of sexual assault with changes in their academic arrangements, including classrooms, seating arrangements, schedules, etc., whenever reasonably available.

Because evidence of sexual assault and the attacker's identity may be left on the victim's body, victims should not wash in any way until they have been examined in a hospital. The exam should be conducted as quickly as possible because the evidence deteriorates quickly and may be important in proving the assault in criminal proceedings. The hospital staff will collect evidence, check for injuries and deal with the possibility of sexually transmitted diseases.

An employee or student who commits a sexual violence/assault may be charged by the institution with a violation of the Sexual Harassment provision of the Student Code and/or employment contract. Student victims of sexual assault should contact the Dean of Students (or other member of the Student Affairs Department with whom they are comfortable) for an informal consultation or to file a formal complaint. Employees should

contact their supervisor or other manager with whom they are comfortable, or the Human Resources Manager: teresa.sadler@neumont.edu, 801.302.2808, 3rd floor executive reception area.

Alleged sexual assaults in which the perpetrator is a Neumont student may result in in-house judicial sanctions for that student. Student Affairs will meet with the parties involved and use a "preponderance of the evidence" standard to determine responsibility and, where applicable, hold the alleged perpetrator judicially responsible. Possible sanctions include an institutional restraining order banning contact with the victim, and/or sanctions up to and including temporary or permanent separation from Neumont University. The accused student will be given the opportunity to present evidence to Student Affairs prior to decisions regarding judicial sanctions.

Please note:

- A. The accuser and accused are entitled to the same opportunities to have others present during a disciplinary proceeding;
- B. Both the accuser and the accused shall be informed of the outcome of any institutional disciplinary proceeding brought alleging a sex offense (the institution's final determination and any sanction against the accused).

Counseling for victims of sexual assault is available through local rape crisis center: 801.467.7282. Student Affairs may also assist the student with identifying a counselor and with scheduling an appointment.

ILLEGAL DRUGS AND ALCOHOL POLICIES

The University requires students to comply with state and federal laws governing the use, sale, and possession of drugs and alcohol.

The consumption and/or possession of any alcoholic beverage by any person less than 21 years of age is forbidden as provided by state law and campus regulations. Alcohol

consumption is not permitted on institutional premises unless expressly authorized.

The University prohibits the use, possession, manufacture, sale or distribution by its students or employees of any illegal drug on campus and in Neumont coordinated housing facilities.

The Drug-Free Workplace Act of 1988 applies to all employees of the university. Any employee who is found guilty of an offense involving a controlled substance on the premises or property owned or controlled by the institution shall be subject to disciplinary action, including termination, or will be required to satisfactorily participate in an approved drug assistance rehabilitation program.

Neumont employs Resident Assistants (RAs) and professional housing staff. An RA, a professional staff member, or both, reside at the Neumont coordinated housing facilities. Resident Assistants complete health and safety inspections in each Neumont apartment each academic term, respond to complaints of policy violations, and perform security rounds at each the housing facilities as needed to ensure policy compliance.

Matters involving illegal drugs at the Neumont campus or in the Neumont coordinated housing facilities are referred to the South Jordan Police Department. Matters involving violations of the Neumont alcohol policy are either referred to the police or are handled as institutional disciplinary matters.

Students who violate the alcohol or drug policies may be required to attend an alcohol safety and awareness workshop, complete community service, write a relevant essay, and/or, as requested or deemed appropriate, offered referrals to community programs that may assist with drug and alcohol abuse. Students involved in policy violations are sometimes required to attend Alcoholics or Narcotics Anonymous meetings or other drug counseling programs, and/or a Mothers Against Drunk Driving Victim Impact Panels; these sanctions are intended to remediate potential substance

abuse issues and educate students. For additional information, see the Student Code.

Student Affairs staff will assist any student or employee with the identification of substance abuse prevention or intervention services in the Salt Lake City area. Contact information for the department is included in a table above.

REGISTERED SEX OFFENDERS

Students are encouraged to be knowledgeable and aware of who lives around them and to take reasonable steps to maintain their own safety. Neumont University encourages students to be aware of the sex offender registry with the State of Utah. The registry can be located online using the following URLs:

- <http://corrections.utah.gov>,
- <http://corrections.utah.gov/services/sonar.html>.

MISSING-STUDENT NOTIFICATION

Neumont University coordinates housing for its students. In the event that a student or employee believes a housing resident is missing (for at least 24 hours or for a shorter period of time under circumstances that warrant an immediate response) the Dean of Students or a designee should be notified. (Personnel from other departments who receive a missing student report will forward the notification to the Dean of Students.) The Dean of Students will then notify local law enforcement with jurisdiction for the area and/or the missing student’s emergency contacts.

For missing students who are less than 18-years-old, parents/guardians will automatically be notified of the student’s circumstances. For students who are 18-years-old or older, parent/guardian notification will occur only if the student has signed a FERPA (Family Education Rights and Privacy Act) waiver or if the circumstances qualify as an exception to FERPA protection.

Housing residents provide a list of emergency contacts upon moving into their apartment and may amend that document at any time. Residents may also provide supplemental emergency contact information to be used by Student Affairs and/or law enforcement only in furtherance of a missing person investigation. To provide such information, contact Student Affairs: studentaffairs@neumont.edu.

FIRE SAFETY

The Neumont University campus fire safety measures include: smoke detectors, fire suppression sprinklers, and fire extinguishers as required by Utah law. The South Jordan Fire Department conducts regular (typically annual) inspections of the Neumont campus to ensure compliance with fire safety regulations. RiverPark management, which owns and manages the Neumont campus building, also conducts annual fire/evacuation drills.

For the purpose of fire safety each Neumont University apartment is equipped with three smoke/carbon monoxide detectors (one in each bedroom, one in the living room) and three fire suppression sprinklers (one in each bedroom, one in the living room). Each apartment also includes a fire alarm to alert residents of fire in other units within the building. These alarms include a flashing light and siren to accommodate the hearing and visually impaired. Additionally, fire extinguishers are located in each external stairwell/breezeway (one per level).

Smoking, lit candles, incense, and any other items that use or produce an open flame are not permitted in University apartments.

Four Seasons at Southtowne, which owns all of the apartments in which Neumont housing residents currently reside, conducts annual fire and safety inspections. These inspections include testing fire alarms and pressurizing fire extinguishers.

In the event of a fire or any other hazardous situations, housing residents should evacuate immediately. Neumont housing personnel reside at the Four Seasons apartment complex and will assist with the evacuation process to the extent possible; however, in extreme situations, residents may need to evacuate an apartment without the assistance of housing personnel or emergency responders. To effect a safe and timely evacuation, residents should evacuate to the nearest safe area and leave possessions behind in the apartment. They should also abide by instructions given by Neumont personnel, apartment complex staff, and emergency responders.

CAMPUS SAFETY AND SECURITY SURVEY INFORMATION

Student Affairs maintains logs that include descriptions of all crimes and fire-related incidents that occur on-campus and in the Neumont University coordinated housing program. These logs are available for viewing, upon request, with the Dean of Students.

Campus/housing crime statistics are updated each year in October. The data is available on the University website (www.neumont.edu) to comply with Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act and to inform the Neumont community about the prevalence and nature of crimes occurring on-campus and in the coordinated housing program.

For the purpose of reporting crime statistics, the Neumont University campus is defined as:

- Western border: Jordan River
- Eastern border: River Front Parkway
- Northern border: South Jordan Parkway (10600 South)
- Southern border: 10920 S. River Front Parkway

The Neumont University coordinated housing program apartments, currently located at Four Seasons at Southtowne apartment complex (420 West Cadbury, South Jordan, Utah,

84095), is classified as “noncampus” (not part of the campus but closely related to, and an essential part of, the university) in the crime statistics report; crime statistics for the complex are included in the same document as campus statistics, though they are reported separately.

For the purpose of reporting crime statistics, the Neumont University coordinated housing program is defined as Neumont-controlled/occupied apartments within the following boundaries:

- Western border: 420 West
- Eastern border: 500 West
- Northern border: 10842 South
- Southern border: 11075 South

Statistics for Clery crimes are collected from the South Jordan Police Department. The University also tracks Clery crimes that occur on-campus and in the coordinated housing program. These are the sources of published crime statistics.

Each year, an e-mail notification is sent to all Neumont University students and employees to notify them of the availability of this report, as well as crime statistics. Students and staff members may request a paper copy of this report by contacting Student Affairs.

The survey data is listed at the end of this report.

GLOSSARY OF TERMS FOR THE CAMPUS SAFETY AND SECURITY SURVEY

HATE CRIMES are defined as a crime that manifests evidence that the victim was intentionally selected because of the perpetrator's bias. The applicable categories of bias are: race, gender, religion, sexual orientation, ethnicity/national origin and disability.

Neumont does not own the apartment complexes in which it houses students. For this report, Neumont apartments have been designated “**NONCAMPUS.**” These statistics only include Neumont-controlled/occupied apartments. In 2010, Neumont apartments were located at the Pinnacle Southtowne apartment complex (420 W. Cadbury, South Jordan, Utah, 84095). The complex name has changed to Four Seasons at Southtowne.

PUBLIC PROPERTY includes the area immediately surrounding the Neumont campus. This includes the portion of the RiverPark office complex located between the Jordan River (to the east), River Front Parkway (to the west), South Jordan Parkway (to the north), and 10920 S. River Front Parkway (to the south).

The Neumont **CAMPUS** includes the second and third floors of 10701 S. River Front Parkway, South Jordan, Utah, 84095.

DISCIPLINARY ACTIONS include the referral of any person to any official who initiates a disciplinary action of which a record is kept and which may result in the imposition of a sanction. The referral may be to a University official or to law enforcement. Incidents that are referred to law enforcement that do not result in an arrest are included in this category.

MISCELLANEOUS

Questions about crime statistics and logs, or any other topics related to this report should be directed to Student Affairs: studentaffairs@neumont.edu, 801.302.284

CAMPUS SAFETY AND SECURITY SURVEY DATA FOR 2008-2010

*The South Jordan Police Department, the local law enforcement agency with jurisdiction at the apartment complex where Neumont University houses students, reported the following 2010 criminal offense statistics for the entire apartment complex (which includes non-Neumont apartments): 2 incidents of residential burglary, 1 vehicle theft, 7 vehicle burglaries ("break-ins"), and 1 sex offense (the case was closed and there was no arrest). It appears that none of these incidents occurred in apartments occupied by Neumont students. Thus, the crime statistics listed in this section appear to be non-Clery statistics.

**The South Jordan Police Department, the local law enforcement agency with jurisdiction at Neumont University and the adjacent public property, reported 2 business burglaries and 2 vehicle burglaries ("break-ins") for 2010. These are non-Clery statistics.

***The South Jordan Police Department, the local law enforcement agency with jurisdiction at the apartment complex where Neumont University houses students, reported the following arrest statistics for the entire apartment complex (which includes non-Neumont apartments): 2 drug violations, 2 alcohol violations. It appears that only one of these incidents (a drug violation) occurred in an apartment occupied by Neumont students. Thus, most of the crime statistics listed in this section appear to be non-Clery statistics.
