How to Cooperate with the Competition

Five steps to successful collaboration with your biggest rival.

Unified Boss Theory

Expanding the scope of its IT leader allowed the Nova Scotia Department of Justice to deal with IT solutions and privacy issues, all under the same roof.

Strategic HR Integration

Savvy CIOs can find ROI opportunities in connecting

CIO 100 AWARDS

Neumont University

Boldness is the willingness to assume significant risk for the sake of great reward. Congratulations to Neumont University, honored with the 2005 CIO 100 Award for having the drive to reach for the prize, the guts to embrace the dangers, and the discipline to create a mitigation plan and stick to it.

the time this article was written, Neumont went by the name of Northface University.)

The advertisement is titled "Advertisers" at the top. It features a man in a white shirt and tie, standing with his hands on his head in a frustrated or overwhelmed pose. To his left is a diagram consisting of a central target with concentric circles, connected to four points on a horizontal line by lines that curve upwards, resembling a network or a process flow. Below the diagram is a yellow banner with the Lotus logo on the left, the text "Take back control with IBM Lotus middleware." in the center, and the IBM logo on the right.
